

ALIMONY GODFREY

ICT Infrastructure & Systems Administrator

Network | Systems | Cloud Services | Cybersecurity | ICT Operations

Email: alimonyg@gmail.com

Phone: +256783608030 /+256752596371

Location: Uganda

PROFESSIONAL SUMMARY

Experienced ICT Infrastructure and Systems Administrator with over 10 years of experience managing enterprise ICT environments, including network infrastructure, Windows/Linux servers, Microsoft 365, virtualization, cybersecurity, ICT asset management, and end-user technology services.

Proven ability to design, implement, secure, and maintain reliable ICT systems that support organizational objectives. Skilled in systems administration, LAN/WAN management, cloud collaboration platforms, ICT service delivery, vendor coordination, preventive maintenance, and business continuity support.

Experienced in supporting large user environments, improving ICT operations, implementing security controls, developing technical documentation, and delivering technology solutions that improve reliability, performance, and user productivity.

PROFESSIONAL EXPERIENCE

Kakira Sugar Limited – Jinja, Uganda

ICT Infrastructure & Systems Administrator

January 2016 – Present

- Manage enterprise IT infrastructure operations including networks, servers, cloud services, cybersecurity controls, and user technology services, ensuring reliable availability of critical business systems.
- Deploy, configure, and maintain Windows and Linux server environments, ensuring high availability and reliability of critical ICT services.
- Administer Active Directory, Group Policy, DNS, DHCP, user accounts, access permissions, and security policies.
- Manage Microsoft 365 and Exchange Online services, including mailbox administration, user management, shared resources, and security configurations.
- Support virtualization environments using VMware technologies to improve infrastructure efficiency and scalability.
- Design, maintain, and troubleshoot LAN/WAN infrastructure, wireless networks, VPN connectivity, routers, switches, and remote access solutions.
- Monitor ICT infrastructure using PRTG, Nagios, and SolarWinds to proactively identify performance issues and improve service availability.
- Implement cybersecurity controls including endpoint protection, software patching, vulnerability mitigation, access control management, and user security awareness.
- Support backup, disaster recovery, and business continuity processes to protect critical organizational data and services.
- Coordinate with ICT vendors and service providers to ensure SLA compliance and timely resolution of technical issues.

- Manage ICT assets, technical documentation, configuration records, and maintenance schedules for audit and compliance purposes.
- Prepare ICT operational reports to support management decision-making and continuous improvement.
- Provide technical training and user awareness sessions on ICT systems, cybersecurity practices, and technology best practices.

Key Achievements

- Improved ICT service reliability through proactive monitoring, preventive maintenance, and infrastructure optimization.
- Reduced support incidents by 24% through user training and improved ICT processes.
- Successfully supported Microsoft 365, virtualization, server, and network infrastructure operations.
- Improved incident resolution efficiency through structured troubleshooting and service management practices.
- Improved infrastructure availability through proactive monitoring, preventive maintenance, incident management, and structured ICT operational procedures.

IT Technician & Network Support

Kakira Sugar Limited – Jinja, Uganda

January 2016 – January 2020

- Installed, configured, and maintained computers, servers, printers, UPS systems, and networking equipment.
- Supported network infrastructure deployment including switches, routers, wireless access points, and structured cabling.
- Assisted with server maintenance, backups, and disaster recovery activities.
- Provided first-line technical support for hardware, software, and network-related incidents.
- Managed ICT asset tagging, inventory records, and equipment lifecycle documentation.
- Supported implementation and enforcement of ICT policies and operational procedures.

PROFESSIONAL PROJECTS

System & Network Administration Improvement Project

August 2021 – January 2022

- Optimized Active Directory infrastructure, reducing account lockout incidents by 25%.
- Automated password reset processes, saving over 42 support hours monthly.
- Deployed and configured Windows and Linux servers to improve scalability and performance.
- Implemented Microsoft 365 security improvements, reducing phishing-related incidents by 87%.
- Improved ICT resource utilization and reduced operational costs through infrastructure optimization.

EDUCATION

Bachelor of Information and Communication Technology (BICT)

Gulu University – Uganda

August 2006 – January 2010

Software Development (Full Stack)

Microverse – USA

March 2022 – February 2023

Cisco Networking Technician

Cisco Networking Academy

June 2021 – August 2022

PROFESSIONAL TRAINING & CERTIFICATIONS

- Cisco Networking Technician – Cisco Networking Academy
- Cisco Networking Fundamentals and Troubleshooting
- Microsoft 365 Administration Training
- Windows Server Administration Training
- VMware Virtualization Administration Training
- Cybersecurity Fundamentals Training
- Software Development Certification – Microverse

TECHNICAL SKILLS

Infrastructure & Systems Administration

- Windows Server 2012–2022
- Linux Administration (Ubuntu/CentOS)
- Active Directory & Group Policy
- DNS, DHCP, File Services
- Microsoft 365 & Exchange Online
- VMware Virtualization

Networking

- LAN/WAN Administration
- TCP/IP, VLANs
- Routing and Switching
- VPN Technologies
- Firewalls and Network Security
- Wireless Networks

Monitoring & Security

- PRTG
- Nagios
- SolarWinds
- Endpoint Protection
- Vulnerability Management
- Security Awareness Training

ICT Operations

- ICT Asset Management
- Vendor Coordination
- SLA Management
- IT Documentation
- Incident Management
- Preventive Maintenance
- Business Continuity Support

KEY PROFESSIONAL ACHIEVEMENTS

- Resolved over 247 ICT support tickets weekly in a busy enterprise environment.
- Reduced average incident resolution time by 68%.
- Improved first-call resolution rate by 56%.
- Trained more than 57 staff members on ICT systems and cybersecurity practices.
- Supported and maintained over 300 ICT devices and enterprise technology assets.
- Implemented ICT improvement initiatives that increased service efficiency.

PUBLICATION

Spider Wick Web Application

LAP Lambert Academic Publishing – May 2012

Author: Alimony Godfrey

Research publication exploring web browser evolution, browser-server communication using HTTP, and modern web technologies.

GULU UNIVERSITY

This Is To Certify That

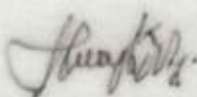

ALIMONY GODFREY

Having completed an approved programme of study
and passed the prescribed examinations was awarded
the degree of

**BACHELOR OF INFORMATION AND
COMMUNICATIONS TECHNOLOGY**

(Second Class with Honours, **LOWER** Division)

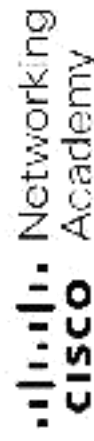

and was admitted to the degree at a Gulu University
Congregation held on *23rd January 2010.*

Vice-Chancellor

GIT 05-009

Academic Registrar

Certificate of Completion

has successfully achieved student level credential for completing the Network Technician Career Path.

The student was able to proficiently:

- Explain the importance of standards and protocols in network communications.
- Explain how communication occurs on Ethernet networks.
- Explain the features of IPv4 and IPv6 addresses.
- Configure an integrated wireless router and wireless client to connect securely to the internet.
- Explain how Internet operates in a switched network.
- Compare the operations of transport layer protocols in supporting end-to-end communication.
- Explain how DNS and DHCP services operate and diagnose basic network connectivity issues.
- Explain how routers use network layer protocols and services to enable end-to-end connectivity.
- Demonstrate effective troubleshooting methodologies and help desk best practices.
- Configure secure user access on a network.

Laura Quintana
Vice President and General Manager
Cisco Networking Academy

Certificate of Course Completion

has successfully achieved student level credential for completing
the Network Addressing and Basic Troubleshooting course.

The student was able to proficiently:

- Explain how physical layer protocols, services, and network media support communications across data networks.
- Explain how media access control in the data link layer supports communication across physical and logical networks.
- Explain how routers use network layer protocols and services to enable end-to-end connectivity.
- Implement an IPv6 addressing scheme.
- Describe Cisco routers and switches.
- Troubleshoot basic network connectivity issues.

To Whom It May Concern:

I am writing this letter as a personal recommendation letter for *Mr Godfrey limony*. I have known *Godfrey*, for over 5 years and as his immediate supervisor, I have found *him* to be honest, reliable, dedicated and conscientious.

I trust that the information provided will be of assistance and will be happy to provide further information about *Godfrey*, if required.

Yours Faithfully

Jordan J. Waheze

Uganda National Examinations Board

This is to certify that the candidate named below sat for the Uganda Advanced Certificate of Education Examination in the year 2005, and qualified for the award of the

Uganda Advanced Certificate of Education

The candidate passed at the level shown (Principal or Subsidiary) in the subject(s) named and attained the Grade(s) as indicated.
